EFFECTIVE DATE: IMMEDIATELY

PAGE 1 OF 1

To: ALL WIA SERVICE PROVIDERS

The purpose of this bulletin is to inform all WIA service providers of the changes to the performance periods for PY 2003-2004 performance. According to the State of California's Employment Development Department (EDD) Bulletin WIAB03-56, the JTA system has been changed to calculate performance in accordance with the Department of Labor's (DOL) TEGL 14-03.

These changes were made to accommodate the needs of Congress to have each State's performance reports completed by October 1st, 2004. The States had previously submitted performance data on February 1st of every year, but in order to make more informed budgetary decisions, Congress demanded the receipt of performance data at an earlier date.

Please be aware that since the State now needs to submit their performance reports by October 1st, the deadline for data entry for clients in the appropriate periods will be much earlier than in previous program years. Although no deadline has yet been set by the State, county MIS staff anticipates that this deadline will be no later than July 20th, 2004.

The attached chart shows the clients that will be counted for the PY 2003-2004 performance period. Previously, those measures in which the UI Base Wage File (BWF) was a source of data measured clients from Oct 1st to September 30th and those measures that did not use the BWF used data from July 1st to June 30th. This will no longer be the case. Some measures will work the same way, while others had the time period adjusted to allow time to successfully match clients against the BWF and still submit the performance reports to DOL in a timely manner.

This matter will be discussed at the MIS User Group Meeting scheduled for April 6th, 2004 at 1:00 pm. Please RVSP for the MIS User Group Meeting by contacting Carmen Salinas at (213) 738-4404 or csalinas@css.co.la.ca.us.
